

# Seed Bomb Instructions

## YOU WILL NEED:

- 1 Package of Flower Seeds
- 3 Sheets of Construction Paper
- Food Processor
- Scissors
- Water
- 3 Small Containers
- Baking Sheet and Parchment Paper (drying seed bombs)

**STEP 1:** Start by cutting your construction paper into one-inch squares. Place each color separately in a container.

**STEP 2:** Once you have cut up all your paper squares and each container is ready, add water. Cover the paper completely and allow to soak for 20 minutes.

**STEP 3:** When the 20 minutes is finished (the hardest part is always waiting), take one container and squeeze the excess water out of the paper. Place the paper in a food processor and pulse until the paper becomes pulp!

**STEP 4:** Divide the packages of seeds between the three containers gently mixing them into the pulp.

**STEP 5:** Start by taking a bit of each color from each container and forming it into a ball!

**STEP 6:** Place your homemade seed bombs on a parchment lined baking tray. You can go ahead and press a few more seeds into the balls if you think they need a few more. Let your tray dry overnight.

Get ready! Once dry, toss your flower seed bombs into your favorite flower pot or garden plot.
