

How to Access the Learning Express Library *GED Resources*

What is the Learning Express Library

The Learning Express Library is an excellent resource that meets the learning needs for a wide range of individuals. In this tutorial we will highlight the High School Equivalency test prep materials the database offers.

The High School Equivalency Center offers test prep materials for the following exams:

- GED
- HiSET
- TASC

Part I: *Accessing the Database*

Step 1: The Library Homepage

The screenshot shows the Benbrook Library homepage. At the top is a dark navigation bar with links: Home, About Us, Library Trustees, Friends and Volunteers, Benbrook Library Blog, and Scrapbook. Below this is a promotional banner for 'LINCOLN CENTER LOCAL' featuring 'FREE SCREENINGS' of 'Artist to Artist: Alan Menken and Michael Mitnick' on Friday, March 24th at 6:00 PM. To the right of this is a yellow 'DATE NIGHT @ The Library' section with details about Friday events and upcoming performances. Further right is a 'Library Catalog' section with a search bar and a 'SEARCH THE CATALOG' button. Below the catalog is an 'ASK A LIBRARIAN' section with a 'RESEARCH REQUEST FORM' button. A row of three colored boxes follows: 'FOR ADULTS' (green), 'FOR TEENS' (orange), and 'FOR CHILDREN' (purple). Below these is a dark blue banner about digital access: 'Your library card gives you free access to digital movies, music, eBooks, eAudiobooks, and comic books through hoopla! Click here to try it out.' At the bottom is a dark grey footer with the text 'Benbrook Library Resources Available 24/7' and 'Available whenever and wherever you are! Pronunciation guides, online help, reference services and more are just a click away.' A blue circle highlights the 'ACCESS LIBRARY DATABASES HERE' button, and a blue arrow points to it from the right.

The link to the library's collection of databases can be found on our homepage (www.benbrooklibrary.org). You'll find the link near the middle of the page. Click on it.

Step 2: Finding the Learning Express Library, Part 1

Benbrook Library Databases & Online Resources

eResources for Adults

Research

Research virtually any topic on these databases. TexShare is a comprehensive collection of forty-nine databases targeting academic, vocational, medical and personal interests. With over 420,000 primary source documents, 28,000 electronic books, 14,000 full-text journals, 5,000 reference books, and 2,600 newspapers information seekers are sure to find reliable information to suit most any research need. Access is password-protected so valid library cardholders simply ask library staff for the log-in information.

Research your family history by accessing historical documents and photos, local narratives, oral histories, indexes, and other resources that span from the 1500s to the 2000s. **Note: This resource may only be accessed in the library.**

Rand State Statistics offers a variety of statistics for Texas and USA. Statistics are organized into the areas of Business and Economic including employment, unemployment, occupational projections, construction and real estate, retail and taxable sales, gross state product, and airport operating statistics; Population and

The database collection will present several offers for you to choose from. However, you will find the Learning Express Library in the TexShare database system. So, click on that icon.

Step 2: Finding the Learning Express Library, Part 2

The TexShare database will require you to login. Your login credentials will be your library card number. Note that the PIN will be the last four digits of your card number.

Please note, however, if you are at the library when you access the database, either on a library computer or your own, you will not be required to login and may skip this step.

Step 2: Finding the Learning Express Library, Part 3

Career Development and Online Learning		
		
		

Once you have successfully logged on the TexShare database, you will again find a list of databases to choose from. The Learning Express Library can be found under the Career Development and Online Learning tab.

Step 3: Registering on Learning Express Library

The image shows a login and registration interface for Learning Express Library. It features a blue background with a yellow and blue curved border on the left. The text "Sign in to your account" is displayed in white. Below this are two white input fields for "Username" and "Password". To the right of the "Password" field is a yellow "Login" button. Below the "Login" button is a blue "Register" button. To the left of the "Login" button is the text "Forgot password?" and to the left of the "Register" button is the text "New user?".

When you open the Learning Express Library, you'll need to create an account to access materials and save any work that you do on the database. You can register, or login if you have an account already, at the bottom of the page. Your username will be your email address and your password will be the one you create when you register.

Once you have registered, you will have full access to database materials.

Feature: Video Guides

Find Resources Library

Welcome to LearningExpress Library

Achieve your educational and career goals. Choose a center below and get started!

View our helpful video user guides.

ACCESS
HERE or HERE

The database offers video guides to help you find and access the materials it offers. You can find a link to the videos on the homepage of the database.

You can either watch one video that includes all of the guides together. Or you can watch each of the guides separately based on subject through the drop down menu.

Step 4: Choosing the Center

DROP DOWN MENU

TOGGLE MENU

There are two ways to access the High School Equivalency Test Prep Center: toggling through the options on the homepage using the arrow keys, or a drop down menu that is also on the homepage.

Tip: If you hover your mouse over the icons in the toggle menu, they will give a short description of each center's features.

Step 5: Accessing Materials

For this tutorial we will look specifically at the materials in the High School Equivalency Center. However, note that each Center in the Learning Library uses the same kinds of navigation tools to make finding things in each center easier for you.

Step 5: Accessing Materials, the Center's Homepage

Each center's homepage has a taskbar that features what the center contains.

The High School Equivalency Center offers an initial skills check, to give you an idea of where you should focus your study. It also offers study materials on the basic skills you need to master for high school equivalency tests and practice exams for the GED and two other equivalency tests.

To access any of these materials, simply click on their respective section icons (use the arrows to the left or right to access more resources).

Click on any of these icons to access their corresponding sections.

Step 5: Accessing Materials, the subsections

Use the plus/minus signs to expand/collapse each subsection.

Each center section also has subsections, and you can switch between these subsections by using the toolbar on the left side of the screen.

You may also access other sections in the Center from this taskbar, rather than returning to the Center homepage, by clicking on their respective titles.

Step 5: Accessing Materials, the subsections

Basic Math Tutorials

If the subsection has more than one page, you can access other pages by clicking on these arrows.

Show me:

All

Showing Pages 1 of 1 < 1 >

Basic Math Tutorial: Comprehensive

This tutorial will walk you through basic math concepts, from fractions and decimals to pre-algebra and geometry. Use the pre-test to learn which skills need more work. Practice exercises and quizzes are included to reinforce what you've learned.

Launch

Basic Math Tutorial: Review

This tutorial offers additional review and plenty of practice exercises in the fundamental math concepts of real numbers, basic operations, proportions, percentages, fractions, decimals, exponents, square roots, basic and coordinate geometry, and more.

Launch

Once you've clicked on a subsection of the center, you'll be given a list of resources you can access. There are several ways to determine the type of resource you are dealing with: TITLE, DESCRIPTION, and MATERIAL TYPE (see the next page for a description of the different material types).

Once you've decided on a resource, you can access it by clicking LAUNCH.

Material Types

Icon	Description
	This icon indicates the resources is either a video or an interactive tutorial.
	This icon indicates the resources is an ebook. Ebooks download as a PDF.
	This icon indicates the resource is a practice exam or a skill test. For practice exams there are three different modes: Learner (the answers are displayed with the questions for study purposes), Practice (a timer is displayed, but not enforced), and Simulation (the test will stop when time runs out).
	This icon indicates the resource is an article. Articles download as a PDF.
