

Benbrook Library Book Donations Guidelines

The following guidelines apply to all donations (hard cover books, soft cover books, paperbacks, DVDs, audio CDs, magazines, etc.) made to the Benbrook Public Library:

The Library does not currently have the space to store materials that we cannot use or sale quickly. We are only able to take items that are no older than two years past the publisher print date. For example, in 2012 we will not take any item published earlier than 2010.

We are unable to accept materials that have been exposed to outside weather conditions. We are also unable to accept Reader's Digest condensed books or National Geographic magazines. We cannot take any technical or college course books.

For exceptions to these guidelines, please see one of our librarians.

Thank you.
